

VHSAL-EI30 is a single frame wood-aluminum fire resistant window that opens outwards.

Fire protection glass is temperature sensitive and fire proof windows must not be used in rooms that are not heated in winter or where the internal temperature rises high (> 45 degrees Celsius).

Fire resistance	EI <sub>130</sub>
Water tightness	Class 9A
Air permeability	Class 4
Resistance to wind load	Class C4

## TECHNICAL DATA

Size	480-1180 x 580-1580mm
Construction	single frame
Opening	top hung
Frame	pine, depth 106mm
Glass	triple fire protection glazing, thickness 42mm
